**How to play** 1. Colour the game board and cut out the four tokens. (You could glue the tokens to bottle tops to make them stronger.) 2. Each player chooses a token and puts it on the board at the start. 3. Take turns to throw a dice and move around the spaces on the board. Watch out for the special spaces! Follow the stars and stay away from the storm clouds if you can. 4. The first player safely home is the winner.
